| Delivery Mode | Part-time |
| Location | David Hockney Building |
| Duration | 6 Weeks |
| Start Date | September 2025 |
| Course Code | |

Course Summary

This intensive 6 week course is designed for learners who have previously achieved a grade 3 in GCSE English Language and are aiming to improve their grade.

What You Will Learn

The course focuses on developing key mathematical skills, understanding fundamental concepts and effective exam techniques.

Modules

Entry Requirements

You will have a grade 3 in Maths and will be given an initial assessment to check your starting point. As this is an intensive course, your attendance for 6 hours each week over two days is mandatory and you must complete additional work outside of class time. This course is free if you do not already have a GCSE Maths grade 4 (C) or above.

Assessment

Assessment of your progress is throughout the course. However, you will be assessed by three externally marked exams in November. It's important to note that these dates are fixed and set nationally, so they cannot be changed.

Progression

A GCSE in Maths is demanded by many employers and can improve your employability prospects, university opportunities and life in general.
